Solvera Lynx acquires the IT services company Bintegra

Solvera Lynx d.d.- a provider of tailor-made Energy Management solutions and Bintegra d.o.o.- an IT solutions and service provider, have entered into a definitive acquisition agreement under which Solvera Lynx acquired 100% of Bintegra d.o.o. company. The acquisition agreement having been approved by each company's board of directors.

By combining companies' resources and expertise across state-of-the-art technologies, a new alliance will contribute toward expanding industry-leading software portfolio and maintaining already strong partnerships with a broad customer base in the following technical fields: energy, telecommunications, industry, infrastructure, and transport.

Jointly companies will be able to provide more comprehensive solutions which will allow them to straighten the leadership in the region and gain opportunities to expand on global markets.

"I am very glad to see Bintegra joining forces with Solvera Lynx; I believe Bintegra will be able to serve customers in a better way, and have the ability to grow faster with more solid foundations. This will also bring more opportunities for growth to the Bintegra team," said Chrystian Barragan, co-founder of Bintegra

"Through this deal, we will be able to better leverage our knowledge in different industries, have a stronger team and together with Solvera Lynx explore and exploit new market opportunities." said Dušan Rauter, co-founder of Bintegra.

"As we welcome the Bintegra Team, we believe that besides cost synergy, their IT expertise will bring us additional knowledge, to improve our advanced energy management software solutions, better exploit the IoT market opportunities and provide us with a continued possibility to exceed customers' expectations." said Arne Mislej, managing director of Solvera Lynx.
